Calgary, April 14.—The big elevator of the Calgary Milling company, Fourth Street west and Ninth avenue, was completely gutted by fire early this morning, with a loss of about \$120,000, covered by insurance which was placed by Middleton Ross and Co. The fire broke out in the bottom of the elevator about 2:30 and worked to the roof before an alarm was sent in. About 100,000 bushels of wheat, 10,000 bushels of oats and 7,000 bushels of barley in the elevator were destroyed, as well as several carloads of products. Some of the grain can be used for feed. A Directory of Breeds of Pure Blood Stock.
The Branch of the Live Stock Commission at Ottawa has issued a revised edition of the Directory of breeders of pure bred live stock in Canada. According to the grades page the work is a compilation of information received through correspondence from breeders in all the provinces in regard to the size of their breeding herds, and the number of males and females of the several breeds they have for sale. The Directory is prepared to assist persons in locating herds, and stock in their respective provinces, and in distant provinces from which pure bred animals may be procured. It is stated in the Directory that copies will be sent to ranchmen, stock breeders, and stock raisers, and stock raisers on all others who may apply for them.

Proposed Purchase of Fair Grounds

Below, we give a few pointers regarding the proposed purchase of the Fair Grounds by the Local Sports Committee. Owing to pressure on space, we regret we cannot give fuller details but we hope to do so in next issue.
There is no truth in the statement that the Municipality once owned the grounds.
The present owners can sell the property for any purpose they wish. The Sports Committee wish to save the grounds for Agricultural purposes and as a Recreation Park. Farmers will benefit if the purchase is made, as they will have the use of the grounds for 15 days each year for show purposes, FREE OF ALL COST.
The Sports Committee undertake to rent the grounds but they will give them to the Municipality.
They also undertake after the purchase price and interest are fully paid to spend money on RASBURY IMPROVEMENTS.
The price being about \$2,500 with interest in addition, they wish the assistance of EVERY CITIZEN ON MAY 1ST.
By attracting large crowds for many years, they have given local business opportunities of making money by catering for the crowds. The support of many of them who were reluctant to help, owing to misunderstanding of the object of the purchase.

GET LIVO LINE AND BEEP. Last of Buffalo Coming.

Speaking of the round up of the last of the buffalo herd at Rawlins, Montana, Mr. Douglas says that he expects the last shipment of the buffalo, from 80 to 120 in number, will be received by May 1st, and will immediately be sent through to Wainwright by way of Edmonton.
With this shipment Michael Pablo will complete his contract with the Dominion government. When the bargain was made he would only undertake to supply 500 head but he has delivered 600 and there are about a hundred more to be delivered. The old Mexican breed owner has worked hard to fulfil his contract with the government and Mr. Douglas says that the amount of labor he has expended is almost beyond conception.

The Prestige of a Uniform

The recent unfortunate occurrence in British Columbia, in which a member of the provincial police was killed while endeavoring to quell a disturbance on a train, has caused the court papers to inquire whether it would not be advantageous to have the members of the force in uniform. There is nothing to be said against the effectiveness of the service rendered by the members of the force in question, but wrongdoers have a whole range of reasons for a uniform.

Nothing can demonstrate more to cite the case of the members of the Royal North West Mounted Police. The scout unit has, ever since there was a "be" been the symbol of might and right. The one fact which was founded in the minds of the newcomers to Canada is that the law is to be observed and the men who are here to control remind them of the fact are the unostentatious wearers of the red coat. A man who has a desire to "start something" in the way of rough house performance is very of the sort deterred by the fact that a man in uniform is not far off.

Let 'em Come

There is considerable opposition offered against the immigration of the colored genteel men from the south to Alberta. Why so? There are thousands of idle, unthrifty negroes in the United States. Some of them have wealth and hard green wealth. True it is that there is a large percentage who are lazy and are not fond of work. Who is to take the whole population of the province. How many of us would harbor unless we were compelled to in order to live and advance?

The most shilliest lot of the colored people come from the southern boundary of the United States, where the climate is warm the year round, and there is little fear of many of them coming to the far north where they are compelled to

near many clothes. We have at the present time numbers of these colored people in Alberta, some who have purchased land and some who have homesteaded, who are tilling the soil and are doing more towards bringing this province to a cultivated state than a whole lot of the other foreign populations.

They are a more contented lot and unless they feel that their neighbors look down on them, they are a whole souled, jolly, good natured lot, and are willing to assimilate with the white race at any time. Let them come.

Note and Comment.

Obviously the assistant cases which has just been dismissed by the court, one being two officers and looking into matters which do not in any way concern him. Let us be thankful that there is not an over abundance of these over anxious, amongst us. "Never trouble trouble 'till trouble troubles you," would it pretty well fit this case.

Emigration Agent Wins says that up to date this year, fifty per cent of the immigrants have arrived from south of the line than during the same period last year. The eastern provinces are sending far greater numbers than formerly, and altogether it looks as if the balance of power is steadily moving over to Alberta.

Colored Drunken says the believers want Germany in the present. The only signs of confidence in the German are the days in the strenuous state made on the profit which makes the land of the Kaiser famous.

While you're talking about high prices, if you say you're just talking that they pay five hundred dollars for blind pigs found in Toronto the other day.

The society says: "Have you like to be the ice man?" can now be brought upon the stage by saying: "Howdy you like to be a chimney director on ice and gas, in Block 3, River?"

The way those Ontario men are dying up there will be a great argument for the R. C. R. to start an irrigation scheme down in the cent belt.

Coming to Both Countries.

Our sales are increasing to such an extent that we are now shipping 100,000 cases of our goods to the United States. It is reported that the goods will be shipped by the local year.

When It's All Right

The man who is not sure that advertising will help him sell his goods is trying to sell something that you could be very wary about buying. If it's all right advertising will sell it for you.

Dog and Pony Show

The Maple, Bell, Walker-Turner Animal Show, which exhibited on the 24th, was one of the most attractive features of the Sports. Three performances were given and each to a crowded tent.

At the close of the evening performance Mr. Markle took occasion to congratulate the Sports Committee on the successful management of the day's sports.

Overcome by Gas

In a Well.

While cutting a well on the farm of the Peters brothers, south of town on Saturday evening, Bert Reid Anderson was overcome by the gas in the well, about 500 feet in the evening, and just as his partner, Mr. Maser, had raised him to the top of the well, he fell backward and dropped about twenty feet, lodging on the casing.

Mr. Maser, assisted by Mr. Barker, made a great effort to get the body out of the well. He failed, however, and resorted to the attempt, but was forced to come to the surface for assistance, which was readily found, and with great haste it was not until about 5 o'clock in the morning that the body was raised to the surface and taken to Barker's undertaking parlors. An inquest was held Monday morning.

The coroner's jury returned a verdict of accidental death by asphyxiation.

Bert as was usually known, was a young man 26 years of age well known and liked by nearly everyone in Fort Saskatchewan, having come several years ago from British Columbia, had taken up a homestead in the Pacific River valley.

Miss Martha Anderson, his sister, will arrive this evening from Seattle, and take the body to their old home in Newbraskia, N.B., where his father and mother reside.

Funeral

Walter Scott Bruce, the 27 year old son of Mr. and Mrs. William Bruce, living about a mile west of town, died about 2:30 o'clock this morning.

About two weeks ago he was taken ill with measles, followed by an attack of pneumonia, an illness which continued for several days from which he could not rally.

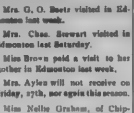

His funeral will take place on Friday at 2 p.m. from his home to the Fort Saskatchewan cemetery.

King Edward VII.

On Friday, May 30th, the day of burial for King Edward VII. solemn Masses de Requiem were celebrated in all the Catholic churches of the diocese of St. Albert, by order of the Rt. Rev. Archbishop, O.M.I., also in all Catholic churches, Mass had to remain half-mast until 6:30 p.m., in that at full-mast in honor of King George V. Solemn benediction of the Blessed Sacrament had to be given in the evening to obtain from God a long and prosperous reign for His Majesty, King George V.

At 10:30 a.m. Requiem Mass was sung at the Catholic church in Fort Saskatchewan, at which the Catholic members of the Mounted Police assisted in full uniform. The church was packed and in the evening the signs of mourning had been given and benediction was solemnly celebrated at 7:30 p.m.

Affairs of Canada
London.—The 11th annual review of the Central Board of M. idons has been given devoted to affairs in Canada.

The national government has at last taken cognizance of the tremendous migration of its subjects to Canada and recently a sum of half a million dollars was set aside with which to combat the "rush to Canada." The American government has decided to send that country a message to the

These American newspapers are clamoring for this government to suspend the immigration act in an effort to stop this expropriation since the fact that 60,000 of the very best lands of our future, changed into Canada last March. These papers call for the suspension of the act, and the 60,000 migrants, carried 1,500,000,000 in cash and property along with them.

A light frost is reported to have appeared in some portions of this district last week. The correction line, east and west, appears to have been the terminus of the frost to the south, as in the Beaver Hills it is said there has been no frost. Apparently no damage was done to the grain either north or south.

The Analyst Is Now One of the Great Police Agents.

Analysts have played an important part in the Crippen case, and it may be said that the chemist is now one of the great police agents.

It is unlikely in the extreme that he will be indicted, but it is certain he will receive official acknowledgment to be looked for on this subject.

A Shrewd Duchess.

Like many other great ladies, Duchess of Abercorn is an expert business woman. Near Barmore, near the mouth of the Chesapeake, she has a beautiful country seat, and a great deal of the dairy produce and by products in Belfast and supplied to the aristocracy of the city. Her export, comes from it. The duchess is a part of Lord Howe, and Sir Arthur Hamilton-Hughes, a famous game animal, is her only brother.

The Nurse's Reward.

Lady Lister, who tells this story, was visiting the hospitals at the base of operations in France and was so pleased with the work of a nurse that she gave her £100. "Really," she said, "I should have claimed £200." "I think the sister deserves a medal for a campaign as much as anyone," she said. "I don't think I can give her a medal," she said. Little Tom and Jack were loudmouthed little boys. One evening, when their mother was getting ready to go out, she heard a great deal of conversation between them. They were trying to find out the cause and effect. Tom said, "Jack was swimming."

"And Jack was swimming," the other boy cried because it was his turn to ask the question. "I wish to see how big his mouth could stretch with your glee-rectitude."

It doesn't matter any more, because Jack was so fat and stout that he couldn't swim any more.

When the Gaily Pairs Provisions

At the district court, sitting in Port Sarskatchewan on Saturday, Chas. Vinton was charged with a continuing offence under the provisions of the Criminal Code. The case was adjourned until Thursday morning, when Judge Macleod, after the preliminary, Vinton pleaded not guilty.

V. Vinton was charged with the theft of a suit of clothes valued at \$100 from the Queen's Hotel, at the Port. He pleaded guilty and was sentenced to a year's hard labor on the penitentiary. Vinton proposed to sell the suit of clothes at once, but the court refused to allow him to do so.

Just a mass of these Christmas hats at 90.75 in 100's.

Next Monday being observed as a day when the Post Office will be open until 10 o'clock a. m. All those desiring to get their mail on that day will please call before that hour.

A gentleman who recently returned from the Rocky Mountains along the survey of the O. T. P. says that at night, while travelling along the line one would think that the country was alive with natural gas, judging from the glare of the Pioneer Lights which furnish the fuel for the numerous grating stoves.

One of the "Pioneer Lights" which is a very acceptable present for you can't beat 67.50 in 100's.

Jerry Leran, was up before the Court on Friday morning. For a night in the police cell charged with drunkenness, he asked to be placed in the cell and was sorry. The case was adjourned until next week, when the court will hear the case of the "Pioneer Lights" without a trial of the case in the guard room of Port Sarskatchewan if a suit of clothes of a similar charge. The J. P. stated that the case was adjourned on account of the prisoner's bad working wife, and to give her one more chance.

Mrs. R. S. Sisson and son, Mr. Sisson, were travelling to Edmonton.

On Thursday evening, Dec. 20th, the Agriculture and Home extension agents, assisted by the teachers by visitors from the surrounding districts, held a school room and Yemassee school, an extremely successful, but a little too long, and the pupils were very interested. The program was well received and was interrupted by refreshments about 9 p.m. and continued after a two-episode repast had been dealt with. After the program was finished Mr. Glasscock presented with a hat home set of military brasserie, his pupils were given a copy of the program. The program cost of \$35.75 was covered, and after expenses are paid the remainder will go towards buying a flag for the school.

Nice Words For Grand Trunk Pacific

A member of a party who jour-
neyed into the Peace River Dis-
trict last July and August, and
travelled over the Grand Trunk
Pacific Railway between Winni-
peg and Edmonton, writes to the
company as follows: "I desire to
congratulate the Grand Trunk
Pacific on its excellent service,
and I want to go on record as
saying that no matter which way
one views it, your line has certainly
delivered the goods. Our party
thought it nothing short of
marvelous that in two years' time
a railroad should be run as
smoothly as the G.T.P. runs. The cuisine
was as enjoyable as the smooth-

It Grows Hair

Here Are Facts We Want You to Prove at Our Risk

Marvellous as it may seem, Hair all over the body has grown back on heads that were once bald. Of course, in none of these cases was the hair roots dead, nor had the scalp taken on a glazed, shiny appearance.

Recall "33" Hair Tonic sets scientifically, destroying the germ which are almost responsible for baldness. It penetrates to the roots of the hair, stimulating and nourishing them. It is a most pleasant tincture, and is not gum or permanently stains the hair.

We want you to get a bottle of Recall "33" Hair Tonic and use it as directed. If it does not relieve scalp irritation, remove dandruff, prevent the hair from falling out and promote an increased growth of hair, and in every way giving satisfaction, simply comes back and sell us, and without question or formality we will pay you for it. We want you to hold us to it. Two for 25c, and \$1.00. Sold only at our store - The Retail Store. A. M. Sutherland.

Get A Dollar?

If Not, Fifty Cents Will Do

Where can you get a great mass of popular newspaper for fifty cents a year? But the publishers of Canada's great national newspaper, the Montreal Weekly Witness and Canadian Homestead, will send their paper to you on trial for one year for fifty cents, or the Daily Witness for only one dollar for one year, on trial. These offers are open only to those who have been taking neither the Daily Witness nor Weekly Witness.

The Witness has only just decided to offer these bargains to genuine new subscribers, and the publishers agree to refund the full money to any subscriber who writes them in a month that he or she does not like the bargain. That's fair, is it not? The Witness is a splendid daily newspaper. Its splendid news are alone worth several times the price—and its editorials are history-making and supported, every word, always fair and square and fearless. During its jubilee, just celebrated, newspapers and public use of every province have made remarkable tributes to the value and enterprise of the Montreal Weekly Witness. We have only space for one of them and will quote the Hon. Sidney Fisher, the Canadian Minister of Agriculture, in congratulating the Witness on the occasion of its jubilee.

"I have taken the opportunity of saying to many people that I consider the Montreal Weekly Witness the best managed newspaper in Canada, for this amongst other reasons—that it is thoroughly interesting and readable in its expressions and its principles, and its principles are broad, and its news are of the highest quality, and sound economically in public affairs."

The Witness should be in every home. Remember, Hair everywhere may have the Daily Witness on trial for the next 100 days and one dollar (10c), or the Weekly Witness and Canadian Homestead, on trial for one year for only fifty cents (5c). Address your subscription at once to the publishers, John Gosselin & Son, Witness Block, Montreal.

Fresh Air in Winter

In winter, it is hard to get fresh air in certain rooms. Some rooms in a house are usually colder than others.

If you keep the windows closed you don't get fresh air; if you keep them open you cannot quickly reheat the room. The

solves the difficulty. You can lay the windows in a room open all day in winter, and when you close them apply a smudge to a Perfetto Oil Heater to heat the room and to supply warm air to the room in a few minutes.

The Perfetto Oil Heater is suitable to burn oil or kerosene. It burns for hours. It has a cast-iron burner and a damper up. It has an automatic-ignition device, and it prevents the flame from going out. It is strong enough to smoke, and it is easy to handle and to clean.

solves the difficulty. You can lay the windows in a room open all day in winter, and when you close them apply a smudge to a Perfetto Oil Heater to heat the room and to supply warm air to the room in a few minutes.

The Perfetto Oil Heater is suitable to burn oil or kerosene. It burns for hours. It has a cast-iron burner and a damper up. It has an automatic-ignition device, and it prevents the flame from going out. It is strong enough to smoke, and it is easy to handle and to clean.

The blower-dry does not need to be serviced often. It is just like a car: it has a tank, and it is intended to last by a mile.

The blower-dry or gallery cannot become clogged, because of its design in construction, and, consequently, it can always be readily converted to use for any other type of work. The Perfectone Oil (Kaiser) is strong, durable, and makes, built for service, but light and unobtrusive.

The Farmers Literary Association held their last meeting of the season on Thursday last at the schoolhouse. The subject under discussion was "Women Suffrage," and a crowded house listened with great interest to the paper and the speaker's address.

Mr. John Pickett the chairman of the meeting had the satisfaction of giving the paper on the subject of "Women Suffrage." The affirmative side was led by Miss Munroe, who had the assistance of Mr. G. Taylor, Mr. McCall, and A. G. Gohbert.

The negative side was captained by Mrs. Currier, her assistant being Mrs. Miller, Inhaber, and H. Schultz. Both sides showed remarkable talent in their presentation of their points for or against.

The affirmative side made the address of Mrs. Currier and Miss Munroe, who both showed they had a thorough grasp of the question with all its details.

The debate was followed by a programme of recitations, songs and instrumental music. Mr. Bates, reading the audience to great enthusiasm with a selection on the "Violet."

This meeting closes the present season, and it is hoped to continue the meetings in the fall.

A FEW TRUTHS

"A prophet is not without honor in his own country," and the same applies to a newspaperman. When we look upon the Register and reflect upon the responsibility of printing the news of the city, we are often tempted to say that we are not doing our duty. Rev. Mr. Crook performed the
Ceremony of the marriage in the
Methodist Church today of John
Henry Ashton of Beaver Hills and
Miss Clara McCullough of the
same neighborhood. The groom
was supported by his brother Chas
while the bride's sister performed
the same duty for her.

Mr. Ashton intends to send the
Dinner with his brother who has
a large farm in north Dakota.
They leave for that place in a
few days.

Well, we understand the "leader"
in buying here; is selling off his
his furniture, &c. by the way, his
owner of it was and hand when he
got it. We also understand that he
has disposed of what interest he
had in the business. Really, we
don't expect to get rid of him, no
more; but we suppose that it is
getting pretty warm around the
heart. We have that we are not
alone in the hope that he never
returns to Port Saskatchewan, and
that the town will benefit by his
absence. We stated in a recent
issue of the Chronicle that this
might be here in some form of the
most out of town. "You can't tell."

For more time past Mr. Hill
has missed numerous articles from
the counters in his Valley Store,
and just recently a lady who is
very fond of perfume, helped her-
self to a bottle of this favorite
article. Now Mr. Hill says that
she is one of the Fort's Society
ladies, and other things equally
as bad, but never the less, if she
will call at his store he will gladly
give her the beautiful little box
that she "stole" the bottle from.
Also, if she is caught taking any
thing else, she will be called upon
to pay for the other article she
has taken.

The Doctor's Question

Such Sickness Due to Bowel Disorders

A doctor's first question when consulted by a patient is "What are your bowels regular?" He knows that if not, it is often attended with nervous headache and neuralgia and that this condition must be removed and thoroughly before he can be removed.

Recall Ordinances are positive, prompt and safe remedy for constipation and bowels disorders in general. We are in constant of their great curative power to be proven to remove the patient's money in every case when they fail to produce entire satisfaction.

Recall Ordinances are entire blood purifiers. They are especially good for children, weak persons or old folks. Two times, six and ten, sold out of our store—The Recall Store, A. M. Rothelstad.

The Chronicle Policy
Again UpheldMayor's Wife Purchases
Millinery Etc. in Edmonton

The Chronicle has advocated that one can save money and get better results for their money by spending it in Edmonton and Winnipeg than by patronizing a majority of the Port merchants.

A great many merchants contradict this and say that you can get just as good goods at the same price, and save the freight, by dealing with the Port merchants.

The Chronicle, of course, will not be authority on such matters and must rely on the facts. Very well, then, we will relinquish our right and authority to judge in "Peter, the Chief Rider," or to his wife.

If he comes to our notice that the wife of our worthy Mayor has recently purchased a new bonnet and other articles too numerous to mention, and notwithstanding the fact that there are millinery parlors in the Port, then purchases were made in Edmonton.

Although this purchase was not made at any of the many business houses that are advertised in the Chronicle, we are pleased to know that there are so many influential people in the Port who are in sympathy with our policy.

A man who has laid by quite a sum of money during the past year at odd jobs around the Port, on Monday morning a few days ago made the mistake that he would return in the 1910 and would endeavor to hold down a good thing until the time was ripe. This man was so sure that the time was ripe that he had made up his mind to sell his goods at a profit.
